

Name/UIN _____

An Aggie does not lie, cheat or steal or tolerate those who do!

Please answer the questions. This is a closed-book exam. Smartphones, tablets, smartwatches, laptops, are NOT allowed. Good luck!

Multiple choice (0.5 point each)

1. Which of the following best describes the primary focus of DAEN 459?
 - (a) Learning programming languages
 - (b) Developing and implementing machine learning models
 - (c) Planning and preparing for a real-world data engineering capstone project
 - (d) Studying data ethics exclusively
2. Which component carries the highest weight in the grading policy?
 - (a) First draft of project charter
 - (b) Second draft of project charter
 - (c) Final project charter
 - (d) Project proposal presentation
3. Which of the following is NOT listed as a key expectation for students in this course?
 - (a) Managing scope, time, and resources
 - (b) Documenting data flow and architecture
 - (c) Developing deep learning algorithms from scratch
 - (d) Applying version control best practices
4. When is the final project charter due according to the course schedule?
 - (a) Fri Oct 17, 5 PM
 - (b) Fri Dec 5, 5 PM
 - (c) Fri Dec 12, 5 PM
 - (d) Dec 11–16 (Final exams)

Short Answer (1 point each)

5. List the three learning outcomes for students completing DAEN 459.

6. List two key expectations for students in this course.

7. Summarize your understanding of the project's purpose and specify at least one technical objective identified so far.

8. Briefly explain the role of the faculty advisor in the DAEN 459 capstone planning course.
(Include meeting expectations and their function as subject matter experts.)

9. Explain the late work policy for DAEN 459, and why is this policy significant for team-based projects?

10. Describe two differences between the Project Charter and the Project Management Packet.

Applied (1 point each)

11. Scenario: Your team is preparing the second draft of the project charter. You've collected data from your sponsor but haven't updated the timeline from the first draft. According to the syllabus, what specific actions should you take before submitting the second draft?
12. The syllabus outlines the V-model as a framework for planning capstone projects. In your own words, explain how the V-model helps ensure alignment between project design and outcomes. Give one example of how a step on the left (design) is mirrored by a step on the right (testing/validation).

Extra (1 point)

13. Write the names of your team members (including advisor/s).

14. Please share thoughts here (including what has worked and what has not worked so well so far).
